Nuclear Mass

(1055)

I am worried over Jagat Bhaskar's objection to Rajaji's plea for firing up nonalignment "splashed over & over in the papers [or is it the same speech repeated in different places?]. Perhaps he has been mandated to do this by his Vinobabhai, or some new brain wave that peace marches may not be consistent with taking assistance from the hated ~~the~~ west. Whatever it be we are at sixes & sevens.

As planned I shall be arriving in Bombay on 8th night by Madras. Surely Viscount attend to Piloo's meeting on 10th & Phiroze Shah's meeting on 11th and return by Viscount on 12th morning to Madras. Staying at Murali's house four nights.

22010
I have kept you informed of Ramfark's
contacts with me. I have your
last note about only alternatives
to a complete smash up of Britain. We
are not worse off than the Western
Powers anyway where we see
U.S. Canada UK & France all
doing their best to fly at one another
the stadium being in the occupation
of the Communists - where too there
is a riot but that is only noise and they
will go over it. Yr Obedt Servt

Richard J. Jones
