The Federation meeting proceedings is painful reading. I don't think I have developed senile sensitivity. It hurts to see the cold-blooded way in which the industrialists sat to receive the P.M.'s lecture. And he claimed the Budget was on the whole received well!

If my fight had been to save these industrialists and nothing more I ~~for~~ should give the cause up in disgust. But alas the people will suffer, and not these, through these taxes. And arrogance and incompetence grow more intonicated at each victory.

The Supreme Court has knocked
down more M.L.A.'s. The slaughter
list now comes to 1 M.P. & 3 M.L.A.'s.
The judgment is in my view grossly
wrong. I hope the matter will be
taken up to the Supreme Court promptly.

Yours truly
