Bombay.1.

Dear Sir,

I am writing this letter thinking that you would have returned to Bombay from your recent tour of some western countries.

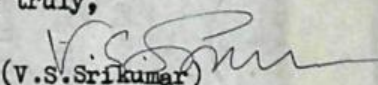

We wanted to hold a meeting of the National Executive and the National General Council of the Swatantra party in Bombay early this month both to secure your participation and guidance and also to secure the advice of Sri J.P on an important issue on which we wanted to take a decision. Mr.S.V.Raju told us that you were out of India and would be back only during the last week of this month or early in June. Mr.Girish Munshi has also gone out of Bombay. So we gave up the idea of having a meeting during this month. We are now trying to have the meeting in Bombay in the second or third week of June subject to your convenience and the convenience of our Bombay friends.

This meeting will have to express its views clearly on the proposed drastic amendment to the already mutilated Constitution of our country and also take a decision on the formation of a single democratic opposition party. As the topics are very vital importance for the future of the party as well the country, I seek your participation in the proposed meeting and your advice on what the party should do in these important matters.

I hope you are keeping good health.

Thanking you in anticipation and with my highest regards,

Yours truly,

(V.S.Srikumar)

Jt.Secretary.
