Re: Notice of resolution to be moved in
the Lok Sabha in the coming Session
of Parliament on the need to set up
an autonomous Board for the issue of
permits and licences

I give below the text as contained in Rajaji's letter of 22nd November:

- (1) That the administration of the Permits and Licences in the mixed economy now in force should be entrusted with full autonomous authority to a non-party Board of economists and statesmen of experience, to function independently of Government as a judicial body,
- (2) That the advice of this Body should be considered by the Government with all respect in the conduct of all economic affairs and placed before Parliament and the general public.

The Fifth National Convention held in Bhubaneswar while passing a resolution on Permit-Licence-Quota Raj stated inter alia :

" The Convention once again calls upon the Government to dismantle the whole pernicious and complex apparatus of controls except to the minimum extent that may be temporarily necessary. Such minimum controls as are so retained should, however, be administered through an independent Tribunal, thus putting an end to the present Permit-Licence-Quota."

(S. V. Raju)
