

G.G.H. Guntur.

Dt/26-9-1974.

My dear Raju,

I am in receipt of your letter dated 13th September as well as a copy of "Freedom First" and I thank you very much for the same.

I expected an article by our beloved leader Mr. Masani with his views and reactions in September issue. Instead, I have gone through with interest your "National alternative". I do admit, that it is a punny game. However, I sincerely feel if Mr. Masani were active with day to day affairs of the party as he was previous, the central leadership could have not cornered to such a miserable state of winding up the party. It is a naked truth that the tired men found it as a God send opportunity, and washed their hands in an honourable way.

Mr. Latchanna has narrated the happenings of the Delhi conference in detail. In principle, I was opposing merger, and I pleaded if Swatantra party were to be dissolved, establishing a regional party was a better alternative rather than B.L.D. However, this lonely voice was unheard. Even now I feel the formation of B.L.D will fetch a little to Mr. Charansingh in U.P, and none other else. On the other hand, I am afraid quite a considerable sections from all the component parties may take this opportunity to run towards the ruling party. As you know, I have to travel in the same way of Mr. Latchanna, and other gentry of Andhra.

My regular posting of House Surgeoncy will be completing by the end of this month, and yet I have to undergo extension for a couple of months as I was on leave in so many occasions.

I heard that there is a M.D. Postgraduation in Psychiatry in K.M.Hospital of Bombay, and it is managed by the Bombay Corporation. I will be very grateful to you, if you inform me about our getting admission in it.

I will be failing in my duties, If I conclude this letter without conveying my regards to Mr. Masani, who has taken much interest in my welfare.

Awaiting for your kind reply,

With kind regards, Yours sincerely,

Y. S. Vaji.
