

16

29th March 1971

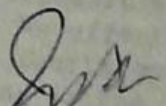

My dear Patwari,

Thank you for your letter of the 16th instant. I have read the statement that you attached to your letter. Your basic thinking is, of course, on the right lines and what you say in para 2 of your letter of the impending danger when dissolution comes is so true.

Just at present I am not clear in my mind how much time and energy I will have to devote to projects of the nature you mention in your letter but the process of education has to be continued. Do please keep me informed of your efforts and if at any time there is any thing I can do for you do please let me know.

Yours sincerely,

Mr. Prasannadas D. Patwari
