My dear Masani,

In the dark days ahead only ray of hope is that now you will be free to devote more time for removal of cultural backwardness of our people which is the main obstacle to the success of our parliamentary institutions. I enclose the copy of the draft statement and constitution for such activities. I have prepared in Gujarati one booklet explaining reasons for the economic misery of the people and another booklet regarding our Judiciary and Fundamental rights. Both are in Gujarati to educate our workers for educating our masters, the electorates. Besides "Radical Humanist" edited by Shri Tarkunde, Shri Daru is editing Gujarati monthly "Chetan".

So far demagogues are able to deceive the people. They are likely to be disillusioned soon, and if we fail to educate them on liberal lines the swing is likely to be extreme left and violent.

Another suggestion for your consideration is that the election symbol used by the ruling congress is purely religious and according to Mr. Daru it can be successfully challenged with little proof. This course will be effective if the elections are challenged in all the High Courts by almost all the candidates concerned. The hearing in the Supreme Court will be at the time when people are likely to be disillusioned.

Thanking you,

Yours sincerely,

PD Patwari
