Ref. No. 211/S.P-59

Date 26th September 59

May it please Your Excellency,

It is since long that I could have the fortunate opportunity of meeting you though I have been eager to pay my respects to you since you have deserted our State.

I looked into an Appeal made by Rajaji for funds for the Swatantra Party published in the issue of 'SWARAJYA' dated the 19th September, wherein your name appears as the recipients of the donations, hence the opportunity has been availed to address you this.

I am afraid if our activities are fresh in your mind still but hope that you will recollect them to your memory by going through a few of our articles issued off and on. We have issued an Article on Swatantra Party recently and propose to do the same every now and then to educate public opinion on the necessity of such party in the Country. These days talents of those, who have no backing or who cannot superficially pose, rust in them and we take the pleasure in reviving our old acquaintance so that we can be of any use to the Party through you. We sincerely feel that a party like that of Swatantra can only succeed to deliver goods in our Country as the scope for all others have been done away with by the working of the blessed Indian National Congress within its regime of a dozen years.

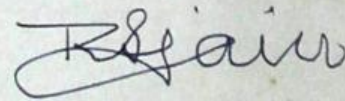

I am in correspondence with Rajaji and Prof. Ranga and am prepared to take into my hand the work of the organisation and have suggested to them to open a branch of the Central office of the Party at Delhi as soon as possible. I think you will agree with me that through an office at Delhi the work of the Party can be done rapidly as all sorts of informations can easily be displayed to all its branches and personalities who are interested in the Party from the Headquarters of the Union Government.

I would very much like to pay my respects to you and would welcome if you have a mind to come in near future this side to avail that opportunity if not then to come to Bombay whenever suits your convenience. Our main purpose is to discuss things about Swatantra Party and chalk out a programme to proceed to make ~~out~~ this Party a combined opposition of the Congress regime either to bring it to the right path if not to replace it in the Next General Elections.

Trusting to be excused for the encroachment upon your precious time and expecting to hear from you in details and being at your disposal all the time.

I am, Your Excellency's Sincerely

Shri H.P. Mody Sahib Bahadur,  
Bombay House,  
Sir Phiroze Shah Road,  
Bombay -1.

(Ranbir Singh Jain)
