UNDER THE CENTRALISED COMPREHENSIVE PLANNING

2076

**FOLLOWED BY THE GOVERNMENT,
PRIORITIES ARE REVERSED,
EMPHASIS BEING PLACED ON**

HEAVY INDUSTRIES

**FIRST, THEN PRODUCER GOODS,
THEN CONSUMER GOODS WITH
AGRICULTURE TRAILING LAST.**

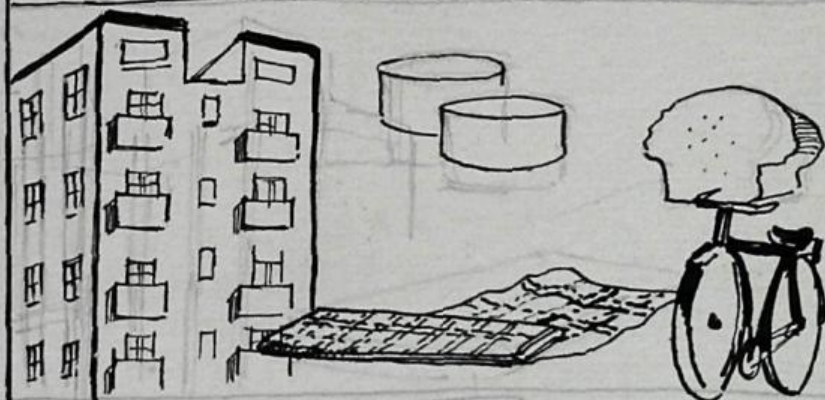

NOW

HEAVY INDUSTRIES
ARE CAPITAL INTENSIVE
AND VERY LITTLE CAPITAL
IS LEFT FOR AGRICULTURAL
DEVELOPMENT.

FOOD PRODUCTION,
THEREFORE, CANNOT
CATCH UP WITH THE
GROWING DEMANDS.

INVESTMENTS IN STEEL PLANTS (MEANS
10-15 YEARS TO PRODUCE STEEL) WHICH IS
SUBSEQUENTLY CONVERTED INTO BUILDINGS,
MACHINES AND CONSUMER GOODS WHICH
PEOPLE BUY.

MEANWHILE CONSTRUCTION AND OP-
ERATION COSTS OF STEEL PLANTS
BECOMES PURCHASING POWER IN
THE HANDS OF THE PEOPLE.

NOW THAT WE HAVE MADE SOME
MONEY, WE'LL BUY THINGS FOR
THE FAMILY SUCH AS GOOD FOOD
GRAINS, A BICYCLE, SHIRTS AND
SARIS...

SO THE PEOPLE WHO GOT THEIR
MONEY FROM CONSTRUCTION COSTS
GO TO THE LOCAL STORES...

WE WANT FOODGRAINS,
SARIS, ETC.

SORRY, NO STOCKS
AVAILABLE... PRICES
TOO HAVE GONE UP
BECAUSE OF SCARCITY.

**THE SUPPLIES OF ESSENTIAL ITEMS LIKE FOODGRAINS
AND CONSUMER GOODS DO NOT COME UP TO THE
REQUIRED LEVEL AS THESE SECTORS OF THE ECONOMY
HAVE BEEN STARVED OF CAPITAL INVESTMENT.**
