Dear Sir,

Yoursself resigned as the leader of the Swatantra Party a little while before the Lok Sabha election and ever since your defeat at the last Lok Sabha election, you seem to have maintained total silence.

Our Prime Minister who has earned reputation as the thirteenth wonders of the world by her tact has earned a brute majority in both Lok Sabha and States elections, and she has invited communists to join her party and the ministry.

There is hardly a day passing without some minister or the politician vituperating all sorts of nonsenses under cover of Garibi Hatao propaganda. All over the country, there is nothing but chaos and lawlessness; and whatever acts and regulations are enacted are to protect the lawless elements and the respectable and law-abiding find it very difficult to pass days comfortably.

What are your activities, what you do at present and where is your present office, I am keen to know. The country must be saved from chaos and lawlessness. There is unbridled inflation coring the heart of the people, poors are getting poorer, middle class is entirely wiped out; and whatever the controls or restriction a group of businessmen from Rajasthan who previously were interested in money lending and sale of textile goods are unconcerned about the state of things to come. They seek to own at least 1/3rd of country's total wealth and are masters of almost every important industry.

Every patriotic Indian worth his salt must awake, rise and be ready to sacrifice everything

Continuation Sheet No. 2.

for preventing further rot by the erstwhile leftist politicians. It is in that context that I desire to meet you on such time and day you can spare conveniently.

Meantime, with my respectful regards,

Faithfully yours,

R. N. Rustomji.
