Nationalisation of Text Books

Resolution unanimously adopted by the General Council of the
Swatantra Party at its meeting in Bombay on May 27, and 28, 1966

- " The Swatantra Party condemns the action taken by some State Governments in nationalising school text books. This will not only result in production of poor quality and high cost books, leaving no choice for the pupils, but also the regimentation of their minds. This is a sinister move which should be resisted by parents, if they want to save their children from mental slavery of one kind or the other. "
