Dear Shri.Masani,

Your Circular letter dated Nov: 1, and the contents thereon is very much appreciated by me. If I give my consent to relieve you from the General Secretary-ship, (I agree to all what you say in your letter,) it is because Shri.N.Dandekar will be able to carry on the responsible work ably, which you were carrying on for the last 7 years, to allow you free to organise the party in all the States.

The services rendered by you to the Party and thereby to the country is immense. The Party's image is thrown by you outside India also. I agree with you when you say that only Office Bearers should do all the work, while others remain passive, is not correct and with this background I am sure your services will be more valuable in future.

The average citizen likes the principles of our Party much more than all the other parties, but they are not being approached by our workers. In that respect the Jan Sangh leaders, keep constant touch with their members and have a better organisation.

The idea of having 4 Joint Secretaries is very good to build up our party in each State, each Joint Secretary taking up a few States for organising. I am sure you will be one of the active vice Presidents, among the other three. Under your able guidance the Joint Secretaries will be able to do a better work in organising the Party throuout India ready to fight a successful elections in 1972.

With best wishes,

Yours Sincerely,

Kanara Bai
