My dear Minoo,

2746

No longer
Many thanks for your circular letter dated November 1, 1967, intimating your decision not to stand for election as General Secretary of the Swatantra Party at the forthcoming meeting later this month in Delhi. I appreciate your feelings and I think that the decision taken by you is the right one. Howsoever good and indispensable one may be, there is always merit in periodical changes and in giving opportunities to new blood or to the coming generation. At the same time, your wise counsel and guidance would always be available as one of the elders of the Party. I hope that you would not change your mind simply because some well-intentioned people may press you to continue in office. I also welcome the suggestion of having Dandekar as General Secretary. He has already made himself acceptable to everyone and I have no doubt that ^{the news of} his election as General Secretary would be received with approbation by all concerned.

Looking forward to see you next week and meanwhile with kind regards,

Yours sincerely,

Chadani
