CENTRAL ORGANISING COMMITTEE DECISIONS.

The Central Organising Committee of the Party met in Bangalore on February 5, 6 and 7. Sixteen out of twenty-two members were present.

The L. in business before the Committee was to consider drafts of the Party's Constitution and of the Statement of Policy to be presented to the National Convention, which is scheduled to meet in Patna on March 19 and 20. Detailed discussions lasting several hours in each case resulted in these drafts being settled.

Various matters concerned with the preparations for the National Convention were also decided, and the General Secretary's Letter No.4 indicating these and providing the necessary guidance has already been issued to the Parties in the various States and the members of the General Council.

Party Flag:

The Committee decided that the Party's Flag should be a five-pointed star visible on both sides against a sky-blue background. The proportions of the flag should be in the ratio of 5 : 3. In a flag which is horizontally 20" long and vertically 12" the distance from one point of the star to the next should be 5". It is hoped that the specimens of the flag which are being prepared by the Central Office would be made available to State Parties by the end of this month.

Students:

The following resolution was unanimously adopted:

"The Central Organising Committee of the Swatantra Party takes note of the great interest shown by young persons in Colleges and Universities in the politics of the country and in particular in the Swatantra Party's programme. The Party is of the view that in free India while students even before graduation should acquire some knowledge of the various trends of political thought, they should, while engaged in College life, abstain from active participation in the furtherance of any political Party. Whatever other parties may be doing, the Swatantra Party is of the view that there should be no encouragement given to the division of students into groups related to the political parties of the country although they may be free to express and discuss their views in their own College Unions.

Students above the prescribed age are no doubt eligible for membership of the Party and are welcome if they seek it. The Party and its members will encourage students to form study circles for promoting the appreciation of political and economic problems but in the interest of discipline the Party is of the view that it should not encourage the formation of political groups inside Universities and Colleges."

Kerala:

The position in various States was reviewed and it was decided that, now that the mid-term elections had taken place, the time had come to explore the possibilities of establishing the Party's organisation in the State of Kerala.

Chinese Aggression:

Reports that there might be an early meeting between Prime Minister Nehru and Chou En-lai without the satisfaction of the pre-conditions to negotiations laid down by the Indian government were considered. While the Committee was not prepared to lend credence to such disturbing reports, it expressed the hope that the Indian government would stick to the pledges that had been given and that there would be no watering down in the conditions laid down for negotiations including a Nehru-Chou meeting.

Party members should follow the Resolution on National Defence adopted at an earlier meeting in Hyderabad. The point made in that Resolution about the desirability of countries of South and Southeast Asia coming together should be stressed, as it was felt that such a grouping would facilitate the acceptance of military aid from other parts of the world.

He stated that the Swatantra Party had a distinct approach to the social and economic problems of the country. He added that the Communists, socialists and allied parties were merely pale imitations of the Congress. He affirmed that the Swatantra Party did not believe in 'co-operative' farming and wanted peasant proprietors to grow independently as they have done for ages past.
