My dear Mr. Sreenivasan,

Kindly refer to your letter of 7th November to Dr. Cooper both of which he has carefully gone through, although I must say that he is extremely busy with his business engagements and he is frequently out of India.

While he has gone through your letters he felt that it would be best if for the present he said nothing. At the same time as and when the kind of "extreme measures" which you fear are indeed attempted he would look into the matter then.

With kind regards,

Yours sincerely,

(S. V. Raju)
