My dear Girish

3226

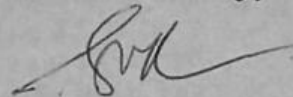

Serry I was extremely busy and couldn't get in touch with you. I tried to ring you up but could not get through.

Though an Emergency has been declared we should relax our efforts to protect the party's properties what with the powers that be likely to get at us as well in their aim of destroying all opposition.

Before anyone of us should attract attention we should hasten with the action we are considering.

Please hurry up.

Yours sincerely,

S.V. Raju
