CENTRAL OFFICE CIRCULAR NO.36

Dear Friend,

Members of the General Council and Office Bearers and members of State Committees are from time to time approached by representatives of the Press for their views on topical issues or for information about Party activities. The frequency of such approaches by the Press are bound to increase as the Party's activity expands and the Elections draw near.

While, even as a general rule, Party members holding responsible positions should be careful in whatever they may say, they should categorically refuse to deal with representatives of dailies and periodicals either conducted by or under the influence of the Communists (Left and Right) and their fellow travellers. The danger in talking to representatives of the Communist and fellow-travelling Press lies in the fact that they are primarily interested in distorting the views and information made available to them by all those opposed to Communism and particularly the Swatantra Party.

A list of such Dailies and Periodicals is enclosed herewith for your information and use.

Encl: *

Yours Sincerely,

(M. R. Masani)
General Secretary.

Publications of Independent ownership
but staffed by Communist sympathisers.
