Dear friend,

COTTON TEXTILE INDUSTRY

The Indian Cotton Merchants' Federation, Bombay have sent us the enclosed report prepared by their sub-committee on the plight of marginal and uneconomic units of the cotton mill industry.

Our object in sending the report is to apprise you of the present unsatisfactory position of the industry and the more important causes leading to it.

We hope the IMCF sub-committee's report will assist you in suggesting suitable remedial measures in the light of conditions existing in your State. It would be helpful to the Industry if you were to draw the attention of the Government to the issues involved in order to obtain relief.

Yours sincerely,

(S.V. Raju)
