My dear Ranga,

I was in Delhi for the meeting of the Gold Control Select Committee and took the opportunity of calling on the Speaker. It turned out to be useful visit.

For one thing, he was going to take steps to alter the seating arrangements in the light of recent political developments among opposition groups in the Lok Sabha. He does not want us to do anything on our part.

I am glad to inform you that my visit was also instrumental in helping him to make up his mind to write to you and to invite you to join the Indian team to the Inter-Parliamentary Conference in Copenhagen next month. I do hope you will go.

Yours sincerely,

(M. R. Masani)
