18th July, 1964.

Express

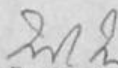

My dear Rajaji,

I have just this minute seen, as I leave for Delhi, the letter on page 23 of your issue of July 18, from someone denying that the Association of Scientific Workers in India is a communist fellow travelling front. That is precisely what it is. The note attached to this letter will show the real character of this body which is a branch of the International organisation.

I do hope you will use this material in your "Dear Reader" column or ask someone to write a letter to the Editor contradicting the "Scientific Worker" in the current issue.

This will be timely because Lal Bahadur is being inveigled into attending a function of theirs in Delhi. *on July 27.*

Yours sincerely,

(M.R. Masani)

Mr. C. Rajagopalachari
