May 29, 1968.

My dear Mr. Masani,

Herewith some more press clippings from the Times of India, ~~and~~ Gujarat Herald and Western Times. The Times of India editorial is based on Mr. K.M. Munshi's letter to the members of the General Council wherein he has openly taken a stand identical to your point of view. The last paragraph of the editorial may be of interest as Indian type of federal structure has been advocated for our Party as against centralisation which we have been following upto now. Earlier I had sent two covers containing clippings from various papers to Mr. Mariswamy to be handed over to you. I am sure you will like to refer to these clippings before participating in the deliberations of the General Council.

With best regards,

Yours sincerely,

(A.P. Jain)

Mr. M.R. Masani, M.P.

My dear Mr. Masani,

Enclosed herewith ^{one} a few more clippings from various newspapers concerning the latest developments in our Party. There is a leading article in the Weekend Review entitled "Swatantra in the Doldrums". There is an editorial in the National Herald and a story based on Mr. Dandeker's talk with the Hindustan Times correspondent (obviously Mr. Sharma). The last paragraph is significant wherein Mr. Dandeker is reported to have said: "Haryana's experience has reaffirmed the view of a section of the party leadership that an anti-Congress posture everywhere is not desirable. This section will press its point at the Madras meeting that the coalition with the Congress should be worked out wherever the response is "sufficiently favourable" and the Congress party is not dominated by the left elements or the "fellow travellers".

With regards,

Yours sincerely,)

AP Jain
