My dear Rajaji,

I thought you should see some reports in the Gujarat press emanating from our friends there. A regular smear campaign has been launched. This does not represent the feeling of the large majority of our members in Gujarat but only of the clique at the top. Their present attitude may be considered to be the first fruits of the policy of craven appeasement followed by the weak leadership at the Centre. If it is not stamped down, I fear this trend will go as far as Ramgarh ever went. Incidentally, Ramgarh has been expelled a couple of days ago from the B.K.D. that being the last Party which he tried to disrupt.

Yours sincerely,

(M. R. MASANI)
