Hydram Masani

I have your letter about the march of the nation. I am inclined to be philosophical about it. These things good as well as bad are not very significant and will be forgotten quickly.

What I have always been saying is confirmed — that we should not start makers. Once you start a journal you get interested in its progress and you forget the whole ~~with~~ spirit the body was given birth for.

Further Peto body is Peto body. You can't make him into a circumspet masani. God bless you. Be cheerful. I learnt yesterday

by accident so to say, ^{that} your wife slipped &
fell & broke a few bones. This is
unfortunate. Our people insist on
slippery bathrooms that look cleaner
and brighter that way. I hope she
is all right on the way to normal
bones now.

Yours truly

Chaymatalachan
