My dear Minoo,

Diana and I were terribly happy to get your letter of September 26th and to know that all is well with you. Many mutual friends have been inquiring about you, the latest being Lawrence de Neufville whom I was happy to be able to inform that I had just received a letter from you.

Yes, I did indeed get the second copy of your book which you had kindly sent by registered airmail. It arrived promptly. I read it with great interest and then loaned it to Mel Lasky who had also inquired about you. I am pleased to know that it is selling reasonably well at your end. Thank you for having gone to the trouble of sending me a second copy since the first one never got here.

The meeting of the Liberal International at Edinburgh did not make much of a stir. Even the Neue Zürcher Zeitung which in the past had reported extensively, this time only devoted a few paragraphs to the meeting.

My health, I am happy to say, has been quite stable lately and I keep on working on my book of which 8 1/2 chapters of a total of 14 have been finished and are in the hands of my London literary agent, but having just come back from a short vacation I find it difficult to get back to it.

We did enjoy a marvellous summer with Jennifer here. She is now back at her college in Massachusetts and seems to be doing well both academically and socially. We expect her for the Christmas holidays.

How nice that you are planning another trip to Europe perhaps even before the end of the year. Needless to say that Diana and I would be absolutely enchanted to see you again and that we hope it will be soon.

Keep well. All good wishes and much love to you from both of us.

As ever,

Mike
