My dear Masani,

I know this will depress you

but the response to the whole idea of a
challenging the censorship
petition has been in the negative. Rana is

sending you the petition but you will
not be able to get attorneys to challenge
the emergency nor are they sanguine about the
challenge to censorship. The rules can be
amended in a second. Please don't ring
them for they decline to speak on the phone.

As for myself, I was as I
told you prepared to act as counsel

but not as organizer of the legal
effort. I sought opinion from other
lawyers and drew a blank. If you
wish to discuss please come over. You
are most welcome. But there is
no point in discussing on the phone - still
less angrily in person. This is the

situation and I am simply reporting
I can imagine your disappointment.

the facts. I might add Kanis also press has also
been a disaster to everybody here.

With best wishes,

Yours s'f,
Korani
