Dt. 18th March, 1971.

My dear Minoo,

Aloo & I have been very unhappy over your defeat in the present election and we both have not been able to get over this even now. We cannot still believe as to how this has happened. I am sure a lot of dirty tactics must have been used to defeat you and it also appears that some of your own people have also betrayed you. We both pray and wish that you again regain your position in the - Parliament with great glorious victory as early as possible.

It is a pity that people like you who should always be in Parliament are not there, just because the other parties could manage by very unfair and foul means to defeat them. The result of the present election has been really very distressing and shocking and we still wish that it could anyhow be made invalid even now or earliest hereafter.

With affectionate regards and all best good wishes for the welfare, happiness, health, prosperity, position and reputation of yours and your family.

Yours very affectionately,

Fali & Aloo.
