Dear Mr. Masani,

I have recently joined Swatantra Party. I am 42 years old. This is my first entry in any kind of political Party. I wish to serve my country through Swatantra Party as I feel this being the only party with the right ideas.

I am a business man only dealing in international trade and am out in Europe atleast 3/4 months every year.

I heard your speech in Sapru Hall, New Delhi yesterday evening and was very much impressed the simple way of your putting up aims of the party.

Now, I feel that classes are already attracted towards our party, how to attract masses, which are the backbone of the national politics and economy.

I propose that immediately our Party should think out a plan where by we should start a "RAJAJI RELIEF FUND" on all India basis, on the same pattern as congress is having Jawaharlal Relief fund.

We must get this "Fund" registered and get an ~~xxxxxxxxxx~~ exemption granted from C.B.R. for incometax purposes, so that business men may genrouly contribute to the same officially.

This money we have to dump in villages in a scientific way, which can be discussed personally. We have to use modern tactics of propoganda although according to Nehra we are old fashioned.

I am always at your disposal for discussions in this connection and other matters which may develop our party in a befitting manner.

I am on holiday in New Delhi, and you may reply me on the following address and I shall be too pleased to call on you on a time previously fixed between us.

With all good wishes,

Yours sincerely,

Murari Lal Arora
