Dear Mr. - Minu Masrani,

Perhaps you will be surprised to know that who am I, I am unknown. Since you have accepted the philosophy of Independent party of Raja Gopal Chari, I am also inclined to know and understand the principles of your party and will help me in my study of Independent party. I am double graduate. I have passed my 2nd LL.B. examination and going to practice here at Karad.

Karad being a constituency of chief minister, I am in difficult position to free this constituency, having felt the necessity of economic good will.

And therefore, all the political acts of our party I request you to send to me. And all details of economic problem how the party is going to solve. The correspondence I hope would be done privately. My address I have given below. I am telling the fact that I am the opening ceremony of our party I am going to do in this month. And therefore I request you to send some amount of money. That will help us to start a party. All the farmers in this district (satara) are against Congress on this problem of Sahakar Cheti Co-operative farming. The reply of this letter
