Dear Mr. Rollman,

Your letter of September 9 was placed before me only a couple of days ago on my return from Europe and I am glad to know of your interest in this Party.

You are quite right of course in saying that something daring and new would be needed to stir the people. I am not at all sure, however, whether your idea of a 'Peace Army' from the United States would go down in this country at this stage in its evolution. I shall, however, show it to my friend, Mr. Jayaprakash Narayan, who may wish to adopt the thought in a somewhat different context.

Yours sincerely,

(M. R. MASANI)
