General Secretary's Letter No. 250

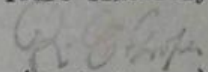

Dear Friend,

To focus attention on the acute problem of unemployment and the ever rising prices of essential commodities it has been decided to observe Monday, January 4, as "Unemployment and Spiralling Prices Day".

The National Headquarters is currently preparing talking points which it hopes to send to the Party's Units at the State/District and Primary levels in a few days hence. Meanwhile, may I suggest that your committee should meet at an early date and chalk out its programme for the day. The programme should include public meetings, processions, leaflet campaigns and memoranda to be addressed to the Ministers for Labour and Finance demanding that government's primary attention should be on these two problems and that urgent steps are called for to reduce unemployment and bring down prices.

These two issues are very important, for on their solution will depend not only the happiness of our people but also the survival of our democratic institutions.

Yours sincerely,

(R. C. Cooper)
General Secretary
