Mr. Masani

Hope your mother is better.

Herewith, Mr. Dandeker's Note on our comments.

What he would like to do would be to confine the N.Hqs comments just to the two points he has tackled viz.,

1. Abolition of the Managing Agency, and
2. Monopolies and Restrictive Trade Practices Bill which he feels are quite enough to expel Mr. Desai.

However,

If you disagree then he suggests that his comments should replace the comments of the NHQ that we prepared from page 4 (second para beginning with the words "Mr. Desai challenges the authority of the CFB..." upto the end of 2nd para on page 6 (ending with the words "....he no longer stands by it")

I am inclined to some extent to agree with Mr. Dandeker's second suggestion. Also that we should reduce the length.

I have made some changes which please see in the attached copy.

(S.V. Raju)

P.S. Try and airfreight the copy as finally corrected by you so as to reach me at least by April 2. I know with your mother's illness this burden is just a little too much but unless we despatch the papers by April, 3, it might not reach ~~them~~ on time.
