

60

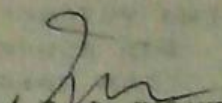

17th March, 1971

My dear Viren,

Thank you for your letter of March 13. As you say, it is all very sad. We shall have to think hard and clearly if we are to learn from what has happened and be able to help in the future. It is time for an agonising reappraisal.

I am arranging to call a meeting of the National Executive and General Council of the Party some time in the second half of April by which time the dust will have settled and we shall have more data.

Yours sincerely,

(M. R. MASANI)
