My dear Dasani,

I would like to ask you
advice in view of the news this morning
that Prof. Ranga might take over from
you.

To begin with your resignation, not
understanding its correct motivation, is
being grossly misinterpreted by the
workers & people in general. They
suspect it to be a ploy to join
Congress (R). In fact, they allege that
Mrs. Dasani and young Dasani only
preceded you to pave your way.

I am sure you have thought about
the resignation a great deal, but
perhaps further consideration would
be in place.

According to Rajmata Gyathi Devi
wishes a meeting of our workers

was called. About 250 attended. However,
all the workers went away dejected.
B Rojmeta and M.D Patel, who accompan-
ied her, left. no doubt in the minds
of the workers that not much help
would be forthcoming, not even in
the way of speakers. It was clear
that the intention of the two was not
to help but to discourage the workers
and so discredit the Delhi Party.

We are fielding a few candidates.
Some of them have already contested &
lost by few votes. In view of
the election, it would be difficult to
attend the Bombay Meeting. Please
let me know if it is important to
attend. I shall manage.

With regards,

Yours Sincerely
