BOMBAY 8th. Apr. 1971.

M. R. Masani, Esqr.,
The President,
The Swatantra Party, Bombay.

Sir,

Re:- Your Resignation.

One wonders why you should resign from your post in the Swatantra Party, when solid work is so necessary from seasoned minds, politically to resuscitate the Party from near-death condition. It BE: All hands to the pump, or drown.

In an ordinary run, one would applaud and appreciate your move and sacrifice. But the dice was loaded against you and India as the Votings showed it up. Hence, why suicide?

You would remember Khushshed F. Nizami. He resigned; the Congress lost a stalwart; Bombay, its uncrowned King. Result? a living death for Mariman.

It would BE in fitness of things to have the voting fully analysed and scrutinised by an all-India effort. Its result should make you decide your final move.

Now, with dedicated Indians left in all Parties, after the landslide desertions, the mill-stone is off the necks for all the Party Leaders to meet and decide the future moves against Indira Congress full of Deserter-soldiers of fortune demanding pounds of flesh from Indira Gandhi. Very Few built up the Congress originally. The old process be repeated.

Rajaji and Morarji Desai are the remnants of the Old Congress -pre Mahatma Gandhi- though the prominence was achieved later. Forget your resignation, confer with them and others for the betterment of India, are my prayers; and your Choice.

BEST to have an "All Party Chief" Conference: very few to meet & think over the situations; even where the Party opinions DO differ, uplifting India would be the paramount aims in all hearts if true.

Rethinking, all around, is prayed for by your faithful,

As the enclosures for information
and applies to the S. Party too.

Bombay, 5th April 1971

The President and The Members,
The Congress Working Committee,
New Delhi.

Gentlemen,

Re: Our Country & Congress Right
If wrong we put it right.

You are presented with some personal views of the present situation.

The Voting is incredible says Morarji Desai "Impossible" is my view having read of tricks in various elections in and outside India.

Indira Gandhi per foreign advises only magnified what the Congress did in the first election, to empower Jawaharlal in the House.

It dumped more votes than the maximum possible in the ballot boxes; and were caught. It was simple addition then. To day a bit more complicated and should be unravelled.

What a man makes, another can break.

Instead of long impractical list if only you had offered "Food and Water" the teeming hungry millions in cities and villages would have voted differently.

A good foil against "Garibi Hatao", To "Gulami Zindebad" in Parliament.

Even today if you adopt "Food and Water first and last" you will wake up Crores to notice-you along with each more mouthful.

A hungry stomach will have to be fed - even via Crime. If a single one of you is 'really hungry', please tell what he feels, thinks, and does. It would be an education to all India.

Women are clever. Look around in your house - and in the Party. They "feed the brute" and get what they want. Feed the stomach at home. Flatter, fool the minds. Indira has done it with expert Foreign advice. You can write off "home advice" which advised her to say that she was receiving letters of threats-which some Foreigners wanted but failed to get as none existed.

Incompetence exposed. Morarji, Tarkeshwari or Patil class of seasoned political brains would have advised "fake attempt on life". She improved later.

Food.

Food is plentiful - deliberately wasted to create high selling price. Food Minister Panjabrao Deshmukh frankly said "It is brand new to me to think of wastage of good food fruits &c. I shall certainly go to markets and see the wastage. "Indians pay for wastage - not mouthfuls?"

Nanda was requested when in Calcutta to look into a report on high

Pd m

high prices of Fish by a Frenchman to the Bengal Government.

Neither Nanda, nor Sir Mukherji of Indians Irons nor others would read about a huge quantity of Fish dumped into the Sea to keep prices UP. If 100% of the catches were sold prices would be 60 to 70% of today's ruling price.

What about looking into this, Gentlemen and win friends?

The second suggestion is to find what foodgrains and vegetables and all other foods pays to the actual farmers and producers in wholesale rates. And compare it to what you pay ultimately to feed yourselves.

The difference will be great. Why not India wide inquiry when this money and wasted food goes and cut the ultimate selling price. Not difficult if you ARE determined so to do.

Old Congress can Do IT to win friends and votes in assemblies. A slash at huge middlemen's and producers profits would bring prices tumbling down. Also by eliminating India-wide wastages.

" Said a Special Police Chief." Give me 24 hours for house to house search for hidden food and you will have ample to eat and EXPORT - Plus prices down. And no Rations.

Your Flag cum Image would RISE if you unearth such foods.

It was wisely suggested that Tarkeshwari should be the Congress President. She would be a good foil for Indira all around.

Women were neglected so why not serve them and they will vote for you if they find their complaints ARE analysed.

Complaints.

Why not ask people to write direct their views about the wrongs they suffer. A most novel stunt in this world.

^{let} ^{be} ~~Cause~~ confidence created that old Congress, now free from Nehru power, with dedicated members can serve the man in the Street. Indira is loaded with traitors and deserters tearing at her throat for compensation

It is the traitors that sell battles and countries to enemies. Mahatma (not Indira) Gandhi publicly said that 95% of white Khadi-Capmen joined him for personal aggrandisement. 5% were honest dedicated men and true Indians.

Mahatma Indira Gandhi says she has support of 95% of men and women. You are flattered and congratulated by her that she has now 95% of your deserters and you have open field to work instead of having to flatter and pander 95% trouble makers.

Black Market

Jawaharlal Nehru wanted to hang black marketters. Instead, he patronised Black market at highest level in the Government.

Let Indira prove her Father and herself by her actions for or against Blackmarket.

Jawarherlalji was Generous - gave Pak foot hold in Kashmere and China Chunks of India. So India is Nehru estate to be gifted to potential enemies? Naturally 95% majority looks for further Nehrugandhy Generosity.

Prices.

The Black market collects over a crore and a half daily in black activities free of taxes - another Nehru generosity. Tax savagely one percent to enrich black friends. *Phm*

You can act on this quickly for future votes.

Can Sanity hold price against black pressure upwards?

Has Indira men with guts and brains to undo the black mischief?

You can do so by forcing her so to do with her 95% majority in the Parliament. It would be a great exposure if Indira and her Parliament refuses to act against Black market.

Morarji has done a good service to fight and die rather than surrender to the Congress (N) in Gujarat.

Your considered and or voted opinions whether Indira can call her Party "Congress" (?) once she and her groups have deserted the old Mother Institution, is vital for the Country. It is the recalcitrant who should come and honour his venerable mother rather than mother to cross over to her own degradation. The Congress is Indian: for India, by India with India; not personal Estate of Indira & Co. unld.

Again, a fighting chance is there to prove votes false and or manipulated to disqualify the "elected" member.

The next in line will be ruled "elected". But new Bye-Election, NEVER.

Golkale, Ranade, Tyabjee, Bannerji, Bal, Pal, Lal, Wederburn, Hame and others must be wondering whether their creation "Congress" to liberate India from the foreign yoke, is going to be Jailor-of Indian Nation in hands of a few.

The Country has had enough of personal fads of Leaders.

May they re-think- "myself or my Country"?

The small opposition moving resolutions in the Parliament to remove fads and fancies will test what is Indira cum majority.

These are Trumps for Congress to play under sane thinking and leadership to correct past mistakes.

The Country will judge and act.

Ask yourselves - "Will I fail my Country?"

If "yes" it would be an Injury more to Mankind, an Insult more to God.

May God Be With True India.

Your faithful,

Pallonji N. Mehta
