Shri Madhu Mehta,  
Vice President,  
Swatantra Party of India,  
BOMBAY.

Respected Friends,

We were overwhelmed to go through a new item in The Times of India, captioned "FUTURE OF SWATANTRA".

It is indeed, a most timely move, coming as it does, from a most respected Stalwart.. The proposal is most widely welcomed by a large number of social service organisation functioning at state level, as they feel that Politicians are solely responsible for price hike, corruption, smuggling and chaos in the country to achieve their own ends.

There is not a single All India institution worth its name, actively working for the upliftment of down troddens. There is no Federation of social cultural and Educational organisations at an All India level which can coordinate the activities of Individual social workers and the local groups.

Of late, the general public and social workers in particular, have been watching with keen interest and great admiration, the non-political activities of Shri Madhu Mehta. They look upon him, as a bright hope of their future leadership. Unlike, Shri Jayprakash Narayan, Shri Madhu Mehta has earned the reputation of being a MAN OF ACTION AND ALOOF FROM CONTROVERSY.

We are sure, you will certainly exert all your influence and force to see that your proposal is accepted with majority. We shall then put before you, our suggestion for its effective functioning.

Assuring you all our cooperation and with kind Regards,

Yours sincerely,

(SREE S. AHUJA)
