My dear Minoo:

As per our agreement, I am sending a draft resolution for your consideration. The resolution as drafted by you had a long preamble expressing your views and did not meet my point against transmutation in the operative part.

My draft merely states factual matters as they transpired and alters the operative part only on the question of transfer.

I also feel that in addition to this there should be another, more emotional resolution recalling the services of the Swatantra Party to the nation, paying tributes to its past leaders etc.

I hope you find this acceptable.

Sincerely yours,

Piloo Mody
