Q23 No doubt you would also be disturbed over the recent developments in the party of which you are also one of the founder leaders. The merger talks have shattered the morale of the cadre of the organisation which you built as the general secretary of the party. Many of us feel that the winding up of the party means lost rail in the coffin of 'Democracy'. During your Secretaryship the party became a challenge to the monolithic congress and unfortunately the absence of a common programme brought the diseases of the grand alliance.

Our Party has brought forth many economic
 reforms as far as our Govt is concerned the people are
 eagerly looking forward to emergence of a clean and
 spirited leadership. If we close our shop, it will be
 a betrayal to the confidence of the people in honesty
 and to the memory of our late lamented statesman
 Rajaji.

Rajaji.

On behalf of the workers of Tamil Nadu and elsewhere, I request you to strenuously fight and put an end to this merger move and take up the leadership of the party. Your active participation in the Party will kindle the spirit of the dedicated

wrongers and the leaders may not think of selling our
our Party to the regional, chauvinistic organisation.
please assert your views and take up the organisation
once again in your hands and definitely we will
be spirit in our political activities for better of the

country.

Dear reply me so that our
find a silver lining of hope.

Warm hearts many

Yours sincerely

P. Satagopan
